Piaras has been teaching our children Latin for about 2 months. He is an excellent teacher. He organised a Skype meeting before we started the lessons to discuss what we were looking for in terms of content in the Latin lessons. This was very helpful.

Piaras is very organised, patient and encouraging which has had very positive results in terms of our children's understanding of Latin. He has a very thorough understanding of the subject and is able to explain grammatical concepts well.

It is a delight to see both our children very enthusiastic about their Latin classes and also wanting to complete their homework well.

Piaras' love of Latin comes across when he is teaching. His systematic approach is exactly what we were looking for. We would highly recommend him as a Latin tutor.
